SEED LIST
FALL 1953

--- 1540 East 102nd Street
Seattle 55, Washington---

25 cents per
packet - postpaid

The following seeds have been gathered fresh from our own plants and are offered in response to requests by the many people who want the pleasure of growing their own rock plants and perennials. SUITABLE FOR ROCK GARDENS UNLESS OTHERWISE DESCRIBED!

- ACENA GLAUCA - gray leaved ground cover for partial shade.
- " MICROPHYLLA - similar but with light green leaves.
- AETHIONEMA STYLOSUM - shrubby gray leaved plant; 10 inch spikes, soft pink fls.
- ANEMONE SYLVESTRIS - white Windflower; about 10 inches in height.
- ANOMATHECA CRUENTA - False Freesia - 6 to 10 inches; bright carmine flowers.
- AQUILEGIA ALPINA - 12 to 15 inches; rich blue flowers in May or June.
- CAMPANULA CULLENMORE - strong growing Bellflowers, blue to white.
- " PUSILLA - shining green leaves; profusion of tubular bells; 6 inches.
- CISTUS ALBIDUS, C. HIRSUTUS, C. MONSPELIENSIS - showy, shrubby Rock Roses.
- CLEMATIS HENRYI - deciduous; flowers large and white.
- CONVOLVULUS MINOR - ANNUAL Morning Glory - blue, white throat suffused yellow.
- CORYDALIS LUTEA - ferny foliage; golden blossoms; sun or shade.
- CYCLAMEN NEAPOLITANUM - Hardy Cyclamen - easy culture; produces flowers in about three years; beautiful leaves from October through Winter; flowers of rich pink on 4 to 6 inch stems; late summer; shade, leafmold, drainage.
- DIANTHUS DELTOIDES COCCINEUS - bright red flowered form of Maiden Pink.
- " GRANITICUS - starry pink flowers in profusion.
- DRYAS SUENDERMANNI - prostrate evergreen shrub with small oak-like leaves; white flowers followed by feathery balls of seed.
- ERICA (HEATHER) - ERICA CINEREA (Purple), E. C. G. FORD (Garnet), E.C. #101 (Red), E. TETRALIX (Pink), E. T. MOLLIS (White flowered, gray foliage); all these are of easy germination; transplant to peaty mixture as soon as true leaves develop; fine little bushes in two years.
- ERYSIMU PULCHELLUM - orange flowers in early spring; good for rock wall.
- ERYTHRONIUM MONTANUM - Avalanche Lily - white flowered.
- EUPHORBIA LATIFOLIA - Mole Plant - tall perennial; odd flowers and seed pods; four rows of leaves up the three to four foot stem.
- GAILLARDIA GOBLIN - low perennial with almost gaudy flowers of yellow and red.
- GERANIUM SANGUINEUM LANCASTRIENSE - pink form.
- HELLANTHEMUM VULGARE - mixed colors; low shrubby Sunrose.
- HEPATICA ACUTILOBA ALBA - woodland plant for early spring.
- IRIS DOUGLASSIANA - 18 inches; white or blue flowers.
- " SETOSA - rich dark blue flowers; 18 inches.
- " TECTORUM - Roof Iris - flat flowers of medium blue.
- LINUM MONOGYNUM - 18 inches; graceful perennial with white flowers.
- PAPAVER NUDICULE - ubiquitous but good to fill lots of sunny border space.
- PENSTEMON CALIFORNICUM - heavily flowered stems to three feet; blue.
- PIERIS FLORIBUNDA - evergreen shrub; upright panicles of creamy flowers; 4 feet.
- POTENTILLA COCCINEA - large rosy red flowers; trailing habit.
- " TONGUEI - smaller flowers of apricot and orange; neat rosettes.
- PRIMULA JAPONICA - Candelabra Primrose - deep pink; 18 inches.
- SEDUM SPATHULIFOLIUM - gray leaved rosettes; yellow flowers.
- SEMPERVIVUM - HEN-&-CHICKENS or HOUSELEEK - mixed varieties.
- SILENE SCHAFFA - Autumn Catchfly - rosy flowers in great profusion; 6 inches.
- SISYRINCHIUM BELLUM - Blue-eyed Grass - wants full sun.
- " CALIFORNICUM - yellow flowers; broader leaves than preceding.
- VERONICA GLAUCOPHYLLA - smooth round gray leaves on somewhat stiff stems; ten inches or less in height; pale blue flowers in leaf axils.
